

Load Calculations— quickly & conveniently!

Benefits of doing room-by-room load calculations:

- Proper equipment selection
- Demonstrates professionalism
- Reduces warranty
- Increases customer satisfaction
- Often required for utility rebates
- Separates you from the competition

Top benefits:

- Print detailed load calc summary pages
- A 10-room home can be done in less than 20 minutes
- Use with Residential Retrofit or New Construction homes
- Integrates with Opportunity Manager™ software
- Detailed video tutorials
- Accepted by most utilities

Perfect for:

- Sales People
- Technicians
- Owners/Managers

Comfort Optimizer™

Professional Load Calculation System

The Comfort Optimizer™ is the most convenient load calculation system available. Using simple point and click selections on the touch screen, anyone can quickly perform a room-by-room or whole house load calculation in a fraction of the time a conventional program takes.

Once the load is complete, print directly to a compatible printer or transfer the load to your computer for printing and archiving.

*Works with most Mobile 5.0 devices,
including PDA/cellphones*
